JAY NICE

INSTRUMENTALS

Growing up on the southside of Chicago in 87th street neighborhood where the music was very rich in traditional Jazz music, I came to embrace music and it's history. My pops would hang out in bars like Bubbles and listen to Jazz all night after work, which then the music would make its way home. Making beats is a passion of mine since I started to DJ in the 80's. I come from the era where Rockit by Herbie Hancock was in full effect. Grand Master Dxt, Grand Master Flash, Afrika Bambaataa, Steve Silk Hurley, Mark the 45 King, Howie Tee, Marley Marl, DJ Premier, Pete Rock, Large Professor and No I.D. are all influences in my life. I'm definitely a fan of real Hip Hop music. My love for diggin through records, yes actual vinyl, is a lost art and I continue to do so. The beat to me is the base for all music and with the right vocals, perfect music is made.
